

## Encountering Life in the Universe: Ethical Foundations and Social Implications of Astrobiology

Filesize: 7.14 MB

### **Reviews**

*The book is simple in read through better to fully grasp. It is rally exciting throgh looking at period of time. I discovered this publication from my i and dad encouraged this book to find out.*  
(Dr. Dillon Monahan)

## ENCOUNTERING LIFE IN THE UNIVERSE: ETHICAL FOUNDATIONS AND SOCIAL IMPLICATIONS OF ASTROBIOLOGY

University of Arizona Press. Paperback. Book Condition: new. BRAND NEW, Encountering Life in the Universe: Ethical Foundations and Social Implications of Astrobiology, Chris Impey, Anna H. Spitz, William Stoeger, Are we alone in the universe? Are the planets our playground to treat as we will, or do we have a responsibility to other creatures who may inhabit or use them? Do we have a right to dump trash in space or leave vehicles on Mars or the moon? How should we interact with other life forms? Encountering Life in the Universe examines the intersection of scientific research and society to further explore the ethics of how to behave in a universe where much is unknown. Taking contributions from notable experts in several fields, the editors skilfully introduce and develop a broad look at the moral questions facing humans on Earth and beyond. Major advances in biology, biotechnology, and medicine create an urgency to ethical considerations in those fields. Astrobiology goes on to debate how we might behave as we explore new worlds, or create new life in the laboratory, or interact with extraterrestrial life forms. Stimulated by new technologies for scientific exploration on and off the Earth, astrobiology is establishing itself as a distinct scientific endeavour. In what way can established philosophies provide guidance for the new frontiers opened by astrobiology research? Can the foundations of ethics and moral philosophy help answer questions about modifying other planets? Or about how to conduct experiments to create life in the lab or about? How to interact with organisms we might discover on another world? While we wait for the first echo that might indicate life beyond Earth, astobiologists, along with philosophers, theologians, artists, and the general public, are exploring how we might behave--even before we know for sure they are there. Encountering...
