A CLEAN TECHNOLOGY APPROACH FOR PAPER AND PULP INDUSTRY

DOWNLOAD PDF

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | A clean Technology Approach for Paper and Pulp Industry with a special reference of Waste Management& Pollution Control | The pursuit of clean technology in any Pulp and Paper mills calls for involvement of full range of its production related and non production related departments. The approach must be flexible enough to adopt a systematic step by step approach to ensure maximum exploitation of clean technology potential. An attempt has been made in this book with the special reference of Paper and Pulp Mills. This book deals with available clean technology and its management approaches for Paper Mills which is a pulp and paper based industry. As the pulp and paper industry is generally considered as among the top 20 highly polluting industries in India as well as in the globe too. Thus it is very important to know the pollution control process and management techniques which are very crucial to achieve the clean and greener environment. This book mainly deals with pollution control and monitoring techniques of paper and pulp industry. All aspects of pollution sources as Air, Solid and liquid waste control techniques are described with explanation and diagrams. This book will be very useful for technical persons, engineers, researchers and students who are interested in paper industry and clean technology. | Format: Paperback | Language/Sprache: english | 68 pp.
