

Trading Options at Expiration: Strategies and Models for Winning the Endgame (Paperback)

Filesize: 5.01 MB

Reviews

Extensive guideline! Its this kind of very good study. It really is full of knowledge and wisdom I discovered this book from my i and dad encouraged this publication to understand.

(Mr. Jerry Littel)

TRADING OPTIONS AT EXPIRATION: STRATEGIES AND MODELS FOR WINNING THE ENDGAME (PAPERBACK)

[DOWNLOAD PDF](#)

Pearson Education (US), United States, 2013. Paperback. Condition: New. Language: English . Brand New Book. Equity and index options expire on the third Friday of each month. As that moment approaches, unusual market forces create option price distortions, rarely understood by most investors. These distortions give rise to outstanding trading opportunities with enormous profit potential. In *Trading Options at Expiration: Strategies and Models for Winning the Endgame*, leading options trader Jeff Augen explores this extraordinary opportunity with never-before published statistical models, minute-by-minute pricing analysis, and optimized trading strategies that regularly deliver returns of 40 -300 per trade. You ll learn how to structure positions that profit from end-of-contract price distortions with remarkably low risk. These strategies don t rely on your ability to pick stocks or predict market direction and they only require one or two days of market exposure per month. Augen also discusses: * Three powerful end-of-cycle effects not comprehended by contemporary pricing models * Trading only one or two days each month and avoiding overnight exposure * Leveraging the surprising power of expiration-day pricing dynamics If you re looking for an innovative new way to reignite your returns no matter where the markets move, you ve found it in *Trading Options at Expiration*. Learn and profit from Jeff Augen s book: It clearly explains how to take advantage of market inefficiencies in collapsing implied volatility, effects of strike price, and time decay. A must-read for individuals who are options oriented. --Ralph J. Acampora, CMT, Director of Technical Analysis Studies, New York Institute of Finance A fantastic, insightful book full of meticulously compiled statistics about anomalies that surround option expiration. Not only does Augen present a set of effective trading strategies to capitalize on these anomalies, he walks through the performance of each across several expirations. His advice...
