HarperCollins Publishers Inc, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. From the Pulitzer Prize-winning New York Times journalist and author of *A Deadly Wandering* comes a pulse-pounding technological thriller-as ingenious as the works of Michael Crichton and as urgent and irresistible as an episode of *24*-in which one man has three days to prevent annihilation: the outbreak of World War III. Computer genius Jeremy Stillwater has designed a machine that can predict global conflicts and ultimately head them off. But he s a stubborn guy, very sure of his own genius, and has wound up making enemies, and even seen his brilliant invention discredited. There s nowhere for him to turn when the most remarkable thing happens: his computer beeps with warning that the outbreak of World War III is imminent, three days and counting. Alone, armed with nothing but his own ingenuity, he embarks on quest to find the mysterious and powerful nemesis determined to destroy mankind. But enemies lurk in the shadows waiting to strike. Could they have figured out how to use Jeremy, and his invention, for their own evil ends? Before he can save billions of lives, Jeremy has to figure out how to save his own. . . .
