Human Kinetics. Paperback. Condition: New. A lot of books focus on which motor skills should be taught to elementary school children, but few focus on how to teach those skills. Teaching Fundamental Motor Skills, Third Edition, steps into that gap and provides expert instruction on both, serving as a foundation for successful movement experiences for children. The book will help you guide your students in mastering the critical elements of 8 locomotor and 17 manipulative skills. The approach offers a perfect balance between sound pedagogy and fun activities that will engage your students and keep them learning. Skill Chapter Organization The authors have organized the content in a way that makes it easy to locate and implement a multitude of activities that will help children grasp the fundamental skills. Each skill chapter includes the following: An introduction, which includes a suggested age at which the skill or a portion of the skill should be mastered and, where appropriate, where the skill aligns with the National Standards and Grade-Level Outcomes Four to six critical elements that are necessary for the skill to be correctly performed Cue words to help students remember each critical element Partner skill check assessments that help partners evaluate others progress Success Builders to help students correct problems Activities for practicing the entire skill at once Troubleshooting charts for identifying problem areas Lesson plans that guide you through the instructional sequence New to This Edition The content is directly tied to the SHAPE America National Standards and Grade-Level Outcomes and is endorsed by SHAPE America, which is including it in their lineup of resources for physical educators. A web resource contains reproducible forms and checklists. This material is easily accessible and printable from mobile devices. And you'll find the fillable PDFs to be a great aid for your...
