

The US-Turkish-NATO Middle East Connection: How the Truman Doctrine and Turkey s NATO Entry Contained the Soviets (Hardback)

By George McGhee

Palgrave MacMillan, United Kingdom, 1990. Hardback. Condition: New. 1990 ed.. Language: English . Brand New Book ***** Print on Demand *****. This book describes the historical background of the Middle East and, in particular, Turkey, prior to the end of World War II. It takes up the various steps taken by the United States to combat Soviet moves after the war to take over this strategic area. It describes the inception of the Truman Doctrine to rearm and strengthen Greece and Turkey in the face of British withdrawal, the unsuccessful efforts made by the United States and Britain to establish a Middle East command or defense organisation, and the successful U.S. efforts to get Turkey into NATO, which blocked Soviet entry. .Ambassador McGhee has chronicled the events which led to Turkey s accession to NATO with great clarity and in a most interesting and readable fashion. He throws a fascinating light on the relationship between the United States of America and Turkey and the personalities involved. This book not only deserves to be read, but it deserves study by all of those who are interested in Defence and Foreign Affairs. Lord Carrington.

Reviews

The very best ebook i ever study. It really is rally fascinating through reading through period of time. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Coleman Kreiger**

This book will be worth getting. Better then never, though i am quite late in start reading this one. Its been written in an extremely basic way which is only right after i finished reading this book through which actually altered me, alter the way i believe.
