All the information you will find on the last page We all love art, but most of us think of learning to draw as a difficult process, involving many hours of sketching and observing, before we become any good at drawing. This book will take the hard work out of learning to draw, giving simple, easy to understand instructions and tips that will enable you to draw great pictures quickly. You will learn how to draw 3D shapes, body parts, objects and animals to a high standard and in proportion. You will start to use shading and highlights to turn ordinary pictures into great pictures in moments. Once you have learnt the basic principles of drawing, you will find yourself doing more advanced drawings with ease. We will start with simple shapes such as 3 Dimensional cubes, spheres and vases. You will learn how to create realistic 3D images by shading, with highlights and lowlights to create an image that jumps off the page.
