Paperback Pages Number: 352 Language: Simplified Chinese Publisher: People's Publishing House; 1st edition (July 1. 2011). The structure of the theory of evolution: the evolution of life research methodology based content around the scientific status of evolutionary and physical science and other issues. For nearly three decades. the philosophical debates about evolutionary biology has attracted a large number of biologists and philosophers. so that these arguments constitute the core topic of the Contemporary Philosophy of Biology. These controversial issues include: the axiomatic scheme of the theory of evolution. natural selection theory to explain the role. select the unit to adapt to the definition of the 'Programme and fitness. and evolution of the law. the definition of the concept of species. taxonomic basis. These arguments ultimately involve the scientific status of Darwinism. Methodological basis of the structure of the theory of evolution: the evolution of life on these arguments were introduced and comb. but this work before in the country rarely carried out. The complexity of the study received extensive attention in recent years. biological complexity. social complexity. management complexity of the important branch. The structure of the theory of evolution: the evolution of life methodological basis of the content is of biological complexity. The structure and nature of the study of biological evolution. the structure of the theory of evolution: the evolution of life methodological basis for the answer on the complexity of the research can become a science. physical science in the methodology of complexity science since Galileo how the difference of these issues to provide some kind of reference. species evolution is very complex. since the Darwin theory of evolution can be seen as an example of...
