Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. A little book of moderate price that will afford immense amusement for gift purposes is Signs, Omens and Superstitions, by Astra Cielo, who has gathered the superstitions of many countries into one volume. In it one may learn the portents in regard to weddings; the uses of rings of different sorts, the influence of various holy days and holidays upon one's luck, signs of good and ill luck, portents connected with the body, superstitions connected with different professions; in fact here is a whole little encyclopedia, even to lucky marriage days according to astrological calendar. Heretofore one could only get such information in an expensive book. The mystery of numbers is traced back to the days of Pythagoras, and the science of numbers and their influence upon the letters of your name—each letter representing a numeral—is now a cult. In some cases the superstition is traced to its origin and in others it is not. Such a book will have a ready sale. —The Bookseller, Newsdealer and Stationer, Vol. 49.
