TELECOMMUNICATIONS CHALLENGES IN DEVELOPING COUNTRIES-ASYMMETRIC INTERCONNECTION CHARGES FOR RURAL AREAS (PAPERBACK)

World Bank Publications, United States, 2004. Paperback. Condition: New. Language: English. Brand New Book. Telecommunications Challenges in Developing Countries addresses an important aspect of interconnection - the settings of call termination charges. In rural telecommunications, network costs are known to be high. The traditional consensus has been that many rural areas cannot be connected without subsidies. This paper investigates the possibilities for implementing a geographically de-averaged charge regime indicative of the relative cost differences between urban and rural networks....

Reviews

It in just one of the most popular ebook. It usually fails to price an excessive amount of. You will not really feel monotony at at any moment of your time (that's what catalogues are for about when you check with me).

-- **Matteo Torp**

The publication is easy in read better to understand. It is writter in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).

-- **Kaya Rippin**

It in one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
