Manual of Canine and Feline Cardiology (Hardback)

By Francis W. K. Smith, Larry P. Tilley, Mark Oyama

Elsevier - Health Sciences Division, United States, 2015. Hardback. Condition: New. 5th Revised edition. Language: English . Brand New Book. The most effective, practical approach to the recognition and management of cardiovascular and cardiopulmonary medicine, MANUAL OF CANINE AND FELINE CARDIOLOGY, 4th Edition takes a user-friendly approach to the challenges and conditions you encounter in everyday practice. This completely revised and updated edition includes vital information on diagnostic modalities and techniques, therapeutic options, surgical procedures, and pharmaceutical management of the dog and cat cardiac patient. This invaluable, practical reference covers the full breadth of canine and feline cardiology diagnosis and management in a straightforward and clinically focused format. The latest coverage on common cardiovascular disorders and practical treatment methods addresses topics, such as: cardiac failure, cardiac arrhythmias, conduction disturbances, cardiopulmonary arrest, and more. Easy-to-follow organization separates content into three sections that build on each other - Section 1: Diagnosis of Heart Disease; Section 2: Cardiovascular Disease; Section 3: Treatment of Cardiovascular Disease. Extensive art program contains vivid illustrations, clinical photographs, and color Doppler images. Drug formulary appendix features a list of commonly used cardiopulmonary drugs, along with formulations, indications, and dosages (for both dogs and cats). Streamlined text, bullet points, and helpful boxes help to...

Reviews

Merely no terms to explain. it was actually writtern quite properly and helpful. I realized this pdf from my dad and i suggested this ebook to discover.
-- **Cletus Quigley**

Without doubt, this is actually the very best function by any article writer. it was writtern quite flawlessly and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.
