

Math and Literature, Grades 2-3

By Marilyn Burns, Stephanie Sheffield

Math Solutions Publications, United States, 2004. Paperback. Book Condition: New. 272 x 211 mm. Language: English . Brand New Book. From Quack and Count to Harry Potter, the imaginative ideas in children's books come to life in math lessons through this unique series. Each resource provides more than 20 classroom-tested lessons that engage children in mathematical problem solving and reasoning. Each lesson features an overview, materials required, and a vignette of how the lesson actually unfolded in a classroom. This book includes a reference chart indicating the mathematical concept each lesson covers, such as number, geometry, patterns, algebra, measurement, data analysis, or probability. Topics include counting, sorting, addition, subtraction, money, measurement, and patterns.

Reviews

This book will not be straightforward to start on studying but really fun to read. It absolutely was written really flawlessly and helpful. You can expect to like just how the writer wrote this publication.

-- **Glenna Goldner**

It is an incredible book which I actually have ever go through. It had been written extremely completely and helpful. You can expect to like the way the blogger publishes this book.
