

The Cremation Furnaces of Auschwitz, Part 1: History and Technology: A Technical and Historical Study.

By Dr Franco Deana, Carlo Mattogno

Castle Hill Services, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Few objects of utter evil have inspired human imagination more than the ominous gas ovens of Auschwitz. Auschwitz is the epicenter of the Holocaust, the baseline of absolute evil. Here is where millions are said to have been murdered and obliterated in the gas ovens by the Nazis. But that s where the problem begins, because there was no such things as a gas oven. What did exist, though, were cremation furnaces used to turn into ashes the remains of deceased inmates. Survivors claim that thousands of corpses were burned in them every day, and that smoke and flames shot out of the crematory chimneys. The present study investigates the Auschwitz cremation furnaces from the bottom up. In the first section, the authors summarize the principles of combustion technology and briefly explain the chemical and physical processes of corpse cremations. Next they sketch out the development of modern cremation techniques with emphasis on Germany, and they investigate the results of several scientific cremation experiments conducted over the past 100+ years. Based on this data and on numerous...
