

Updated Humans and Their Universes: Science Out of the Straitjacket: Rethinking General Relativity, $E=mc^2$. and String Theory

Filesize: 6.83 MB

Reviews

The ideal ebook i possibly go through. It generally does not cost an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Vincenza Hand)

UPDATED HUMANS AND THEIR UNIVERSES: SCIENCE OUT OF THE STRAITJACKET: RETHINKING GENERAL RELATIVITY, $E=mc^2$. AND STRING THEORY

[DOWNLOAD PDF](#)

Createspace, United States, 2011. Paperback. Book Condition: New. Updated. 213 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.I saw a video (Hidden Dimensions: Exploring Hyperspace - // in which it was stated that mathematicians are free to imagine anything while physicists work in a very different environment constrained by experiment, and that the American physicist Richard Feynman (1918-1988) said scientists work in a straitjacket. Well, Albert Einstein (1879-1955) said Imagination is more important than knowledge so let s see what happens when we throw away everyday tradition and conformity, let our imaginations fly (while trying to stay grounded in science and technology), and thus release science from its straitjacket! This little book has its beginnings in cellular automata (in mathematics and computer science, collections of cells on a grid that evolve through a number of discrete time steps according to a set of rules based on the states of neighbouring cells) and grew into a belief that the universe (electromagnetism, gravitation, space-time and, as we ll see, 5th dimensional hyperspace) has a digital (electronic) foundation. This belief can be supported by 11 steps that begin with an experiment in electrical engineering at Yale University in the USA. These steps logically lead to assertions of instant intergalactic travel, time travel into the past as well as the future (neither of which can be altered), of unification of the large-scale universe with small-scale quantum particles, that the universe is a computer-generated hologram, that everyone who ever lived can have eternal life and health, that motion is an illusion caused by the rapid display of digitally generated frames, that the entire universe is contained in (or unified with) every one of its particles, that the terms computer-generated and computer do not necessarily refer to an actual...
