

The Long-Term International Economic Position of the United States (Paperback)

By C. Fred Bergsten

The Peterson Institute for International Economics, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book. This Special Report looks at the long-run prospects for the international economic position of the United States, with particular focus on the likely evolution of the current account deficit and prospective foreign financing for it. Its goal is to provide a fundamental framework for the development of US fiscal and other economic policies, especially including responses to the global financial and economic crisis of 2008--09. The central message is that the long-run outlook is extremely worrisome and potentially very costly--in foreign policy/national security as well as economic terms. As the country (and the world) emerges from the global crisis, and even in fashioning policy responses to the crisis itself, it will be essential to keep the long-run considerations firmly in mind. This will require early and decisive policy actions, perhaps even in tandem with the near-term stimulus and housing initiatives, to address the ever-escalating costs of the major entitlement programs, Social Security and especially Medicare/Medicaid, and thus the country's overall fiscal position.

Reviews

Extensive guideline! Its this sort of very good go through. I have got read and i am confident that i will gonna read through once more once more in the future. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Joana Champlin**

The ideal ebook i actually study. It usually does not expense too much. You wont really feel monotony at at any time of your own time (that's what catalogs are for relating to should you request me).
