Reviews

This book might be worth a read, and superior to other. Of course, it really is engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. 228 x 148 mm. Language: English . Brand New Book ***** Print on Demand *****.Information on Black scientists and inventors is becoming more readily available to the general public and this is a welcome development. However, information specifically on the scientific and technological contributions of the Ancient Egyptians is not as readily available as one might think. Great books and essays have been written on the topic but many authors have pitched their works above the level of the ordinary reader. Other papers are in difficult-to-find journals and collections. Some writers, in an attempt to bring greater prestige to twentieth century European and European American science, dismiss all ancient science as superstition and error. They emphasize what the Ancient Egyptians did not know as opposed to what they did know. In this book, Blacks and Science Volume One, I bring the information together in one place. I write positively about what the Ancient Egyptians achieved and do not waste ink on what they did not achieve. Finally I present the information in as straightforward and accessible a way as possible. Should you read this book and learn the information: * You will gain a greater mastery over Black or African History * Your knowledge will be the envy of your friends and family * Learning your historical contributions will skyrocket your confidence and esteem * Your interest in all areas of human culture will dramatically increase * You will have a vast reserve of information to pass on to your children This book is largely a synthesis of my previously published Kindle e-books Ancient Egyptian Contributions to Science and Technology combined with The Mysterious Sciences of the Great Pyramid. The feedback I received from these e-books was positive, but...
