Incredible Edible Science: Recipes for Developing Science and Literacy Skills

By Richard Krustchinsky, Elizabeth Plaster

Redleaf Press. Paperback. Book Condition: new. BRAND NEW, Incredible Edible Science: Recipes for Developing Science and Literacy Skills, Richard Krustchinsky, Elizabeth Plaster, Make learning exciting for children with over 160 hands-on, food-based science activities, each with a strong literacy connection. Incredible Edible Science provides everything needed to teach important science process skills in a safe, developmentally appropriate way. These cross-curricular activities promote brain development and fully engage children through physical involvement--such as exploring balance and texture as they create popcorn ball structures, classifying and patterning different types of cereal, and investigating fractions with biscuits--and participation in literacy and language components such as phonemic awareness, vocabulary development, and following directions. After the activity is complete, children can eat their work!.

Reviews

Completely essential read publication. I am quite late in start reading this one, but better then never. You wont truly feel monotony at at any moment of your time (that's what catalogs are for regarding should you question me).
