

Performance analysis of MPLS based networks with conventional networks

By Tahir, Junaid

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Most of the organizations around the world demand the communication system that is more reliable, secure, cost effective and efficient. So VOIP (Voice over IP) can fulfill this requirement when it is implemented by using some different network technologies like MPLS (Multi Protocol Label Switching) with IPv4 that enables Differentiated Quality of services over the network. This Book will provide detailed performance analysis of networks by performing different experiments. In Conclusion outstanding results have been achieved for VOIP over the MPLS based network. | Format: Paperback | Language/Sprache: english | 64 pp.

Reviews

Very good electronic book and valuable one. It is actually written in basic words instead of difficult to understand. I discovered this ebook from my i and dad encouraged this publication to discover.

-- Prof. Jevon Frami

It is just one of the best publications. This can be for anyone who states that there was not a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
