This adventurous critical inquiry into Sontag s archive illuminates the intimate link between modernism and theory while also providing a fascinating reintroduction to these two movements and concepts. Mena Mitrano explores three core ideas in this study: the confusion of terms between modernism and theory; the concept of an unwritten theory suggested by Sontag s subterranean engagement with the foremost theorists of our time (Derrida, Foucault, Deleuze, Lacan, Jameson and others) in the rawness of her journals and notebooks; and Sontag s identity as a non-traditional philosopher, through the extraordinary discipleship to Walter Benjamin. The book is driven by new archival research and will have a multi-layered impact, changing our perception of Sontag as a post-Cold War public intellectual as well as interrogating key concepts in the Humanities.
