You can buy whatever furniture unit you need, and the options are great. However, I find it really magical when I finish a budget-friendly home project on my own, and then just sit and admire it. So, as I know that tiny home owners always need some easy ideas to help them live big in a small home, I made a collection of 15 projects that you can either do on your own or with a little help of a friend and freshen up your home. Plus, all these projects are budget-friendly, so they are even more amazing. The idea for the book came from my impression that the biggest challenge that people living in tiny houses face is a lack of storage space. You can t cram up all your possessions. Instead, your furniture items should have more than one function if you want to live comfortably. Thus, the book is aimed to give some clever storage ideas to those who have tiny rooms. The projects presented here are suitable for your entire home, from your hall and living room to your bathroom and loft. These unique designs may even serve as an inspiration for you for your own projects. Reading this book, you will learn how to design and make the following furniture items: Tiny Storage Stairs Clever Ottoman Slim Shelves Bathroom Wall Baskets Floating Shelves Sneaky Sofa Table Pot Rack Leather Sling Planter Crate Display Cases Storage Coffee Table Rolling...
