iUniverse, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.What accounts for the rise and fall of so many civilizations-especially when some of them held more political power than their rivals? Author Joseph Sassoon tackles this question and many others in this, his second volume on self-actualization. As a missionary for humanism, he explores the social conditions that are necessary for the greatest number of people to achieve self-actualization. In presenting his theories, he reviews the work of major thinkers, including Kurt Goldstein and his landmark book, *Human Nature in the Light of Psychopathology*; Charles Darwin; Buddha; and many others. Sassoon explores the answers to key questions: - What is society's role in helping individuals move toward self-actualization? - What benefits would society enjoy if more people achieved their potential? - What are the main characteristics of a humanist code? - What can we do to promote humanist values? A third volume in this series will establish the conditions required to bring about a world federalism based on humanism. In a changing world with competing ideologies, it is more important than ever to establish the importance of humanist values. In this study, Sassoon describes a step-by-step social arrangement leading to self-actualization for the greatest number of people in society.
