Centuries before steam technology, a powerful empire ruled the lands of Falone. The uncontested tour de force was ruled by a prominent family. That is, before everything crumbled. Good kings controlled their lands not with swords, but with their eyes. When the plague came to blind every man, woman, and child, desperation arrived, breeding a revolution none could escape. Alexander Cady fled his disease-ridden hamlet in search for a cure, but what he discovered along the way changed his life forever.
