Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Platelet Activation and function in asymptomatic, treatment-naïve HIV infection | In the era of ART, the risk of AIDS-related deaths has decreased and people living with HIV now have prolonged life spans. However, HIV infected patients are at a higher risk of developing cardiovascular disease and other inflammatory-associated complications. In this study we look at activated platelets and the potential role they play during infection and the inflammatory process. By mediating interactions between cells of innate immunity. Furthermore, we describe a novel Flow Cytometry based platelet functional assay and a cost-effective panel of tests that may be used to monitor disease progression in Anti-retroviral therapy naïve HIV infected patients. | Format: Paperback | Language/Sprache: english | 112 pp.
