Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Dairy Herd Improvement Letter, Vol. 54: December, 1978 Table 1 shows the ranking of States by percentage of usable records for 1974 through 1977. For 1974, the percentage ranged from to By 1977, the range was from to several things need to be said about the percentages. The percentage is calculated on fewer than 100 records, and the next highest percentage is The low percentage of usable records in several States is probably due to the increase in the number of cows that have been put on production testing in the last 2 years. When large numbers of cows are entered on test at the same time, it is very likely that many of the cows are not identified by sire. It would be beneficial both to dairy farmers and to the research effort for more cows to be identified by sire.
