The tax being at a fair rate makes it commercially possib for investors to be honest in their tax schedules, and it is confidently anticipated that the net result will be an actual collection of tax moneys greatly in excess of the amount received under the old impossible system. Massachusetts is the second commonwealth to adopt this form of state taxation, Wisconsin having adopted such a tax in 1912. The newest law, however, as the Investment Bankers bulletin points out, is notable for a number of variations from both the Wisconsin and the Federal income tax plans. One of the most striking of these changes is the elimination of the graduated rate of taxation. In both the Wisconsin and Federal acts the rate rises as the income rises. The effect of this is to make the burden of taxation increase doubly as income increases, and the purpose was frankly to shift a doubly large proportion of the taxes upon the well-to-do. It had been argued that a graduated rate was necessary for the political success of income tax legislation, but the experience of Massachusetts to have disproved that claim. How the Massachusetts investor will benefit...
