

Libéralisation financière et croissance économique

By Amaira, Bouzid

Condition: New. Publisher/Verlag: Presses Académiques Francophones | Fondements théoriques et validations empiriques | Au cours des dernières décennies, il y a eu de grands débats théoriques et empiriques sur la relation entre la finance et la croissance. Tout d'abord, en utilisant des données statistiques recueillies auprès de diverses institutions internationales et nationales, cette étude porte sur la recherche quantitative, y compris la modélisation économétrique pour estimer l'impact des réformes entreprises sur les secteurs bancaires des économies émergentes. Cette façon tente de définir le niveau de développement financier de chaque pays étudié par le calcul d'un indice de libéralisation financière et par une analyse des composantes principales des indicateurs bancaires et financiers. Ensuite, afin d'analyser empiriquement les différents aspects de la relation entre la finance et la croissance et d'étudier différentes hypothèses, l'étude utilise trois techniques économétriques importantes. Ce sont, à savoir, la cointégration et le Modèle Vectoriel à Correction d'Erreur (VECM), le modèle Vectoriel Autorégressif (VAR) et l'approche en données de panel dynamique en système. Chaque technique a été choisie en fonction de son besoin, la capacité efficace pour tester une hypothèse spécifique. | Format: Paperback | Language/Sprache: fre | 288 pp.
