How and why does the way we answer that question matter A definition of leadership is like a mirror to the management skills of the person that describes it. It affects the way we react in an organization with our supervisors and with our followers. We see the results of decisions every day in the media but if we are not willing to look behind and see the complex structure of such decisions, we are blind and get the wrong conclusions. A try to understand leadership is the beginning of a way to understand organizations and politics at all. 16 pp. Englisch.
