Princeton University Press, United States, 2007. Paperback. Book Condition: New. New. 231 x 155 mm. Language: English . Brand New Book. The European Union, the world's foremost trader, is not an easy bargainer to deal with. Its twenty-five member states have relinquished most of their sovereignty in trade to the supranational level, and in international commercial negotiations, such as those conducted under the World Trade Organization, the EU speaks with a single voice. This single voice has enabled the Brussels-based institution to impact the distributional outcomes of international trade negotiations and shape the global political economy. *Trading Voices* is the most comprehensive book about the politics of trade policy in the EU and the role of the EU as a central actor in international commercial negotiations. Sophie Meunier explores how this pooling of trade policy-making and external representation affects the EU's bargaining power in international trade talks. Using institutionalist analysis, she argues that its complex institutional procedures and multiple masters have, more than once, forced its trade partners to give in to an EU speaking with a single voice. Through analysis of four transatlantic commercial negotiations over agriculture, public procurement, and civil aviation, *Trading Voices* explores the politics of international trade bargaining. It also addresses the salient political question of whether efficiency at negotiating comes at the expense of democratic legitimacy. Finally, this book looks at how the EU, with its recent enlargement and proposed constitution, might become an even more formidable rival to the United States in shaping globalization.
