FAST FACTS: CHEMOTHERAPY -INDUCED NAUSEA AND VOMITING (PAPERBACK)

Health Press Limited, United Kingdom, 2016. Paperback. Condition: New. Language: N/A. Brand New Book. Few side effects of cancer treatment are more feared by patients than nausea and vomiting. Failure to control these symptoms on the first day of chemotherapy increases the risk of them occurring on subsequent days and in subsequent cycles of chemotherapy, and can often result in patients refusing further cancer treatment. Very effective antiemetics are available to prevent this from happening, but do you know how...

Reviews

Thorough manual for pdf lovers. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
