2030 - WILL COMPUTERS BECOME HUMAN?: A PERSPECTIVE ON THE FUTURE OF THE COMPUTER

Createspace, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.Who first conceived the idea that someday computers would think in ways that one could not distinguish from a human? Perhaps it was Alan Turing. Born in 1912, this British mathematician, cryptanalyst (in World War II), computer scientist and marathon runner, created the concept and first model of a general purpose computer. It became known as the Turing...

Reviews

The very best publication i at any time read through. I actually have go through and i am confident that i am going to planning to read through once more once more down the road. I found out this ebook from my i and dad advised this publication to learn.
-- Emie Wuckert

This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.
