Excerpt from Fire Service Supervision: Increasing Team Effectiveness To achieve the Academy s legislated mandate (under Public Law 93-493, October 29, 1974) to advance the professional development of fire service personnel and of other persons engaged in fire prevention activities, the Field Programs Division has developed an effective program linkage with established fire training systems which exist at the state and local level. It is the responsibility of this division to support and strengthen these delivery systems. Academy field courses have been sponsored by the respective state fire training systems in every state. This course, along with the Field Programs course Fire Service Supervision Increasing Personal Effectiveness, is intended to upgrade the management skills of company officers so that they can improve their own efficiency and that of their personnel. For more intensive coverage of the topics addressed here and related material, students are referred to the Academy s Resident Programs management programs.
