Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1866 Excerpt: .on the margin of the last page, to which I refer the reader. The regular *Dlwan* is preceded by a long introduction containing an immense mass of profound learning, among other things a solution of the famous problem on the Duplication of the Cube, by Aflatun. In one important step the construction of the problem is Mechanical, not Geometrical, which last I am afraid it never will be. In other respects, however, the solution is extremely ingenious, and strictly in conformity with the elements of Euclid. The work is in the highest state of preservation, written on fine paper, at least three centuries old, with margins richly and tastefully ruled. The outer margin also consists of very fine paper abounding in notes and explanations, beautifully written, both in *Naskhl* and *Ta Ilk*. Altogether it is a very unique and valuable MS., and I venture to say that it has not its equal in Europe in such a perfect state of preservation. Small folio, pp. 714,11. 19. 10 10s. *bj-o cuLK* (131.) *Kulliyati Sauda*. The whole works of Sauda, the Prince of Hindustani Poets. This was Dr. Gilehris s own copy specially transcribed for him in A.d. 1802 or 1803, shortly before he left India. It is in all probability the most accurate and the most complete copy of the work now existing. It is written in a very distinct *Ta Ilk* character, according to the Doctor s reformed Urdu system, on fine thin Indian paper, all...
