Les lymphomes B de haut grade de malignité issus du centre germinatif

By Valnet Rabier, Marie-Blanche

Condition: New. Publisher/Verlag: Presses Académiques Francophones | Etude du micro-environnement et de son impact sur la survie | Les lymphomes malins non hodgkiniens sont responsables d'une importante mortalité. Certains événements initialisant la tumorigénèse sont identifiés mais certains mécanismes demeurent encore hypothétiques. Des progrès considérables ont été réalisés dans la caractérisation de ces tumeurs, de leur micro-environnement. Les traitements ont ainsi été améliorés. Toutefois, les lymphomes B diffus à grandes cellules (LBDGC) et les lymphomes de Burkitt (LB), deux lymphoproliférations B dont le clone tumoral est issu du centre germinatif ont encore des survies médiocres. Nous nous sommes intéressés au micro-environnement des cellules tumorales des LB et LBDGC afin de comprendre quel rôle il joue dans la régulation des facteurs impliqués dans la survie ou l'apoptose. Nous avons montré que l'expression de certaines protéines, survivin, cycline B, clusterine et c-Flip est impliquée dans la survie des patients et régulée par des signaux envoyés par le micro-environnement des cellules tumorales. Lectorat ciblé : chercheur en oncologie/hématologie/immunologie | Format: Paperback | Language/Sprache: fr | 272 pp.

Reviews

Simply no terms to clarify. It is actually loaded with knowledge and wisdom I am just delighted to let you know that this is the very best publication I have got read through during my individual lifestyle and could be the very best pdf for actually.

-- **Mr. Caleb Quigley MD**

It is one of the best ebooks. Yes, it is actually engaging, still an interesting and amazing literature. It has been developed in an exceedingly straightforward way in fact it is just following I finished reading through this book by which basically modified me, alter the way I really believe.
