HIGHER ORDER STABILIZED SURFACE FINITE ELEMENT METHODS FOR DIFFUSION-CONVECTION-REACTION EQUATIONS ON SURFACES WITH AND WITHOUT BOUNDARY : MICRO-MACRO TRANSACTIONS 28

THUMBNAIL NOT AVAILABLE

Docupoint Gmbh Magdeburg Nov 2017, 2017. Taschenbuch. Condition: Neu. Neuware - The numerical simulation of free surface and two-phase flows is an area of high interest in fluid dynamics. Thereby, the fluid flow can be influenced by so called surfactants. Surfactant is an abbreviation for surface active agent and names a chemical compound, which can adsorb at the surface and change the surface tension. This influences the fluid motion. To model the influence of surfactants, diusion-convection-reaction equations in the fluid...

Reviews

It is really an awesome pdf that I actually have actually study. It really is basic but excitement from the 50 % of the publication. I am delighted to inform you that here is the greatest book i have read through within my individual existence and can be he finest publication for actually.
-- *Mrs. Yasmine Crona*

These types of publication is the best book available. it absolutely was writtern very completely and helpful. I am very happy to explain how here is the greatest book we have study within my individual existence and can be he greatest publication for possibly.
-- *Lucas Brown*

This publication is fantastic. It really is full of knowledge and wisdom You are going to like just how the author write this publication.
