Language: English Brand New Book ***** Print on Demand *****.Excerpt from Catalogue of the Type-Specimens of the Mammals in the United States National Museum, Include the Biological Survey Collection The scientific publications of the National Museum consist of two series - the Bulletin and the Proceedings. The Bulletin, publication of which was begun in 1875, is a series of more or less extensive works intended to illustrate the collections of the U. S. National Museum and, with the exception noted below, is issued separately. These bulletins are monographic in scope and are devoted principally to the discussion of large zoological and botanical groups, faunas and floras, bibliographies of eminent naturalists, reports of expeditions, etc. They are usually of octavo size, although a quarto form, known as the Special Bulletin, has been adopted in a few instances in which a larger page was deemed indispensable. This work forms No. 62 of the Bulletin series. Since 1902 the volumes of the series known as Contributions from the National Herbarium, and containing papers relating to the botanical collections of the Museum, have been published as bulletins. The Proceedings, the first..
