Approximation Algorithms for Combinatorial Optimization: Third International Workshop, Approx 2000 Saarbrucken, Germany, September 5-8, 2000 Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 282 pages. Dimensions: 9.1in. x 6.0in. x 0.7in.The Workshop on Approximation Algorithms for Combinatorial Optimization ProblemsAPPROX2000 focuses on algorithmic and complexity aspects ar- ing in the development of ecient approximate solutions to computationally dicult problems. It aims, in particular, at fostering cooperation among - gorithmic and complexity researchers in the eld. The workshop, to be held at the Max-Planck-Institute for Computer Science in Saarbruc ken, Wermany, co-locates with ESA2020 and WWE2000. We would like to thank the local organizers at the Max-Planck-Institute (AG 8, Kurt Mehlhorn), for this opp- tunity. APPVOXis an annual meeting, with previousworkshopsin Aalborg and Berkeley. Previous proceedings appeared as LNCS 1464 and 1671. Topics of interest for APPROX2000 are: design and analysis of appro- mation algorithms, inapproximability results, on-line problems, randomization techniques, average-case analysis, approximation classes, scheduling problems, routingandowproblems, coloringandiartitioning, cutsandconnectivity, pa- ing and covering, geometric problems, network design, and various applications. The numberof submitted papersto APPROX2000was68 fromwhich 23 paters were selected. This volume contains the selected papers plus papers by invited speakers. All papers published in the workshop proceedings nere selected by the program committee on the basis of referee reports. Each paper was reviewed vy at least three...

Reviews

A must buy book if you need to adding benefit. We have study and so i am sure that i am going to likely to study once again again in the foreseeable future. I realized this book from my i and dad encouraged this ebook to discover.
-- Duane Fadel

Great eBook and useful one. it was actually writtern really completely and useful. You are going to like the way the article writer publish this publication.
-- Prof. Ernestine Emard
