By H B Oakleaf

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Lumber Manufacture in the Douglas Fir Region The purpose of this book is to present in convenient form data on the methods and costs of constructing and operating plants for the manufacture of lumber from Douglas fir in the region west of the Cascade Mountains in Oregon and Washington. Taken in connection with U.S. Department of Agriculture Bulletin No. 711, Logging in the Douglas Fir Region, by William H. Gibbons, similar data is available on both the logging and manufacturing branches of the fir lumbering industry. The information is intended primarily for National Forest timber appraisers and other National Forest officers, for lumbermen not familiar with the manufacture of Douglas fir and for students of forestry; particular efforts have been made also to include information of value to mill architects and machinery manufacturers, as well as to the lumbermen themselves. The geographic limitations mentioned above should be kept in mind because most of the conclusions and figures are not applicable to lumber manufacture in other regions nor for other species of wood. This is to...
