Createspace, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.The pop music genre has undergone a variety of changes over the years. The 60 s saw people clamoring for rock sensibilities and pop formalities to create a controversial and endearing sound for the ages. The 80 s saw pop music take on a form unto itself, creating pop icons that extend above and beyond just the music. And now, we see the pop spectrum widening further, as more and more artists have an opportunity to enter the industry - with decidedly mixed results. While some pop stars remain manufactured shells, others reign as domineering artists in all facets of their career. Adele seemingly extends herself beyond normal constraints. As far as the world is concerned, she is THE pop star. This biography will look at her highs and lows, and see what made her who she is today.
