

Application of the Cellular Automata in pitting corrosive process

Filesize: 5.83 MB

Reviews

The publication is great and fantastic. It can be filled with knowledge and wisdom You wont truly feel monotony at at any moment of your time (that's what catalogues are for about if you ask me).

(Dr. Marcos Grimes III)

APPLICATION OF THE CELLULAR AUTOMATA IN PITTING CORROSIVE PROCESS

LAP Lambert Academic Publishing Apr 2018, 2018. Taschenbuch. Condition: Neu. Neuware - Pitting in metal is known to be an evolutionary process spanning a wide range of scales. It developed rapidly from microscopic to macroscopic dimensions along with the time. Simulation approaches at a mesoscopic scale, turning to be the link between the micro-scale and macro-scale, may be possible to know the related properties and characteristic of pitting nucleation and metastable evolution from a different standpoint. Cellular Automata approach provides an alternative method to study the connections between microscopic and macroscopic world. A computational 2D and 3D model based on Cellular Automata approach is developed to simulate the pitting nucleation and metastable evolution of Steam Generator tubing as a discrete dynamical system. 56 pp. Englisch.
