Hosiery Management System: An Automation software

By Pankaj Bhambri

LAP LAMBERT Academic Publishing. Paperback. Condition: New. 56 pages. Dimensions: 8.7in. x 5.9in. x 0.1in. System development project along with the theory is most important in the curriculum. Under this, students are assigned system development project as individual or in a team. In this way, one can acquire practical experience, in real life system development. Regarding this good aspect of the course, we tried to find some good problems, which we could develop with much effort so that we could gain as much from our course that will be a milestone in our future professional life. This project is about computerization of Hosiery Management. The present project has been built with an aim to computerize the entire task of conducting different category of goods, order of product and by keeping record of all the category of goods as well the reports of order by consumer generated thereof. We have made the present project Hosiery Management which makes it very easy for the user to maintain the records of different types of goods, category information as well as the records of all the products whose order have been placed. We came across a lot of problems in different clerical and technical units...

Reviews

Very useful to all category of men and women. I actually have study and i also am certain that i am going to going to read through again once more down the road. Its been written in an exceptionally simple way and is particularly only soon after i finished reading this publication by which basically altered me, modify the way in my opinion.
