

Chambers s Encyclopaedia, Vol. 8 of 10: A Dictionary of Universal Knowledge for the People, Illustrated (Classic Reprint) (Hardback)

Filesize: 7.92 MB

Reviews

These kinds of publication is everything and made me hunting ahead of time and more. I have got read through and i also am confident that i am going to gonna study yet again yet again later on. Its been printed in an extremely basic way in fact it is only after i finished reading this pdf in which in fact transformed me, alter the way i believe.

CHAMBERS S ENCYCLOPAEDIA, VOL. 8 OF 10: A DICTIONARY OF UNIVERSAL KNOWLEDGE FOR THE PEOPLE, ILLUSTRATED (CLASSIC REPRINT) (HARDBACK)

FBC LTD, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Chambers s Encyclopaedia, Vol. 8 of 10: A Dictionary of Universal Knowledge for the People, Illustrated The qualities which are chie?y attended to in the pulse are its frequency, its regularity, its fulness, its tension, and its force. The frequency of the pulse varies greatly with the age. In the foetus in utero, the pulsations vary from 140 to 150 in the minute; in the newly-born infant, from 130 to 140 in the 2d year, from 100 to 115; from the 7th to the 14th year, from 80 to 90; from the 14th to the 21st year, from 75 to 85; and from the 21st to the 60th year, 70 to 75. After this period, the pulse is generally supposed to fall in frequency, but the most opposite assertions have been made on this subject. There are many excep tions to the preceding statement; young persons being often met with having a pulse below 60, and cases not unfrequently occurring in which the pulse habitually reached 100, or did not exceed 40 in the minute, without apparent disease. The numbers which have been given are taken from an equal number of males and females, and the pulsations taken in the sitting position. The in?uence of sex is very considerable, especially in adult age, the pulse of the adult female exceeding in frequency that of the male of the same age by from 10 to 14 beats in the minute. The effect of muscular exertion in raising the pulse is well known and it has been found by Dr Guy that posture materially in?uences the number of pulsations Thus, in healthy males of the mean age of 27 years, the average frequency of...
