The Worldly system has suppressed who the Hebrews (the twelve tribes) are for many years. It has been a well-known fact that they were part of the Atlantic slave trade, among other persecutions that have been recorded throughout history. The interesting thing is at some point History has become His-story. People, governments, the education system have gone through great lengths to hide a lot of history. A professor out of Nigeria did an extensive research to locate some of ancient Hebrews. His book called the Ibos has created a lot of controversy, and his book has been rejected to enter into the U. S. One has to reason, why are they not allowing this information out for those that desire to learn more about the people of the scriptures We have decided to reprint this book and share his research with those who desire to learn about what happen to part of the Hebrews in history. This is not an attack on any race at all. This is to bring some clarity on some things that have been suppressed for years, and to help Israel wake up and understand who they are. This is a must have in your library. We pray this book gives you an appreciation for what this Professor has done in hope to learn some true history. There is more to this story. We will in the future do a revised version of this book to give more history about the ancient Hebrews that has been called the 10 lost tribes, as well as the tribe of Judah (Yahudah). This item ships from La Vergne, TN. Paperback.
