With the genetically enhanced supersoldier s murderous attack on Beau Walker, the research team s fear rises to a critical level. A postmortem verifies his physical and DNA alterations. But a life-threatening surprise is buried deep within his brain. Walker and the team must escape from the SHIVA complex with the biowarfare evidence. If they are to end the project, someone must enter the deadly Caduceus laboratory-safeguarded by nuclear self-destruct devices-to steal samples. Adina Gerardo unexplainably disappears during their escape attempt. Using their powerful and deadly paranormal gifts, only her children, Emidio and Ana, can lead the team to her and protect them from their military hunters. The youngsters guide the team towards a prophesied encounter with the unknown and the boy s certain death. In a terrifying journey with a mysterious shaman, Beau crosses the threshold between physical reality and those lying beyond his senses, finally understanding the minds of Stefan Durr and Adina Gerardo. Adina opens a portal to an interdimensional nexus, leaving the team and their pursuers awed and overcome with wondrous sights and an astonishing, otherworldly confrontation.
