Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Save the Youngest: Seven Charts on Maternal and Infant Mortality, With Explanatory Comment The chart on page 9 should be read in connection with the chart on page 7. As explained on that chart, deaths in the first month of life are due chiefly to the unfavorable conditions surrounding the mother during pregnancy - conditions which include poverty, ignorance, venereal disease, and lack of medical and nursing care. This chart indicates plainly that the prenatal and natal causes claim the highest number of victims - a number closely corresponding to the deaths in the first month of life. If infant mortality is to be controlled the work for that purpose must begin in the prenatal period, and must include proper medical and nursing care for the mother at the time of childbirth. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
