

Introduction to Polymer Physics basis of modern chemistry Books

Filesize: 3 MB

Reviews

It is one of my personal favorite pdfs. It really is written in basic words instead of hard to understand. Your daily life period will be transformed as soon as you complete looking over this pdf.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 196 Publisher: Science Pub. Date :2011-09-01 version 1 by Hu Wenbing compiled the Introduction to Polymer Physics from the polymer chain structure. chain and chain together three aspects of movement sought to layman's language introduces the basic principles of polymer physics and classical theoretical methods. pay particular attention to the Gaussian chain conformation statistics. scale analysis and statistical thermodynamic mean-field theory and its application progress. and help readers to build a variety of specific situations of the polymer physical image. Author of the book is mainly based Fudan University and Nanjing University in the classroom for many years practical experience. and introduced the topic of some cutting-edge research. its style is different from the existing domestic and international polymer physics textbook. emphasis can be used as a basis for teaching and research reference books. Introduction to Polymer Physics as a professional and high-grade polymer undergraduate institutions of higher learning and graduate teaching with books or reference books; also available for the field of polymer science and materials research and technical staff to read reference. Contents: the basis of modern chemistry books Preface Introduction Chapter 1 of the study of Polymer Physics Polymer 1.2 1.1 What is a physicist in the eyes of Polymer 1.3 1.4 Polymer Physics Polymer Physics subject status of the research questions to think the first part of the content polymer chain structure of Chapter 2 Characterization of the chemical structure of polymer physical properties 2.1 determine the chemical structure of the main chain of semi-soft factors 2.2 2.3 chain of complexity of the interactions between polymer molecular weight 2.4 2.5 topological structure and its distribution 2.6 chain sequence structured thinking questions Chapter 3...
