

LA+ Risk: Interdisciplinary Journal of Landscape Architecture (Paperback)

By Tatum Hands

Oro Editions, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. Risk is many things. It can invoke fun, temptation, or danger; it can be laced with uncertainty, fear, or hope. But most importantly for the design professions, risk is the engine of art and innovation. Complicating the risks inherent in every act of environmental design are two now dominant threats to humanity: climate change and social inequality, both of which are expected to make Earth a more volatile, dystopian planet. Risk reduction - under the rubric of resilience - is the new paradigm for landscape architecture and urbanism.
