

## Library Linked Data in the Cloud: OCLC s Experiments with New Models of Resource Description (Paperback)

By Carol Jean Godby, Shenghui Wang, Jeffrey K. Mixer

Morgan Claypool Publishers, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. This book describes OCLC s contributions to the transformation of the Internet from a web of documents to a Web of Data. The new Web is a growing `cloud of interconnected resources that identify the things people want to know about when they approach the Internet with an information need. The linked data architecture has achieved critical mass just as it has become clear that library standards for resource description are nearing obsolescence. Working for the world s largest library cooperative, OCLC researchers have been active participants in the development of next-generation standards for library resource description. By engaging with an international community of library and Web standards experts, they have published some of the most widely used RDF datasets representing library collections and librarianship. This book focuses on the conceptual and technical challenges involved in publishing linked data derived from traditional library metadata. This transformation is a high priority because most searches for information start not in the library, nor even in a Web-accessible library catalog, but elsewhere on the Internet. Modeling data in a form that the broader Web understands will project the...

### Reviews

*Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.*
