

## The Endocrines (Paperback)

Filesize: 7.46 MB

### **Reviews**

*This ebook can be worthy of a go through, and a lot better than other. Better then never, though i am quite late in start reading this one. Its been printed in an exceedingly easy way which is just soon after i finished reading this book where basically modified me, affect the way i really believe.*

## THE ENDOCRINES (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The aim of the work as stated in the preface is to present the basic principles of endocrinology together with their application to practical problems that confront the physician. His theory, he states, is mainly derived from clinical observation and the record of an experience with gland therapy over a period of twenty-two years. The scope of the book is considerable, inasmuch as the author believes that heredity, development, normal function of the nervous system and mind are all intimately dependent on the ductless glands. At the present moment when facts concerning the endocrines have accumulated to such an extent that but few can be sufficiently acquainted with them to discover their applicability in practice, a working theory that is carefully founded would be acceptable even if it cannot be more than provisional. A. Biedl has done much in the matter of sifting the existing experimental data on animals critically in his careful work on internal secretions. A number of other investigators have added to these efforts. But of clinical studies and observations in the human subject, carried out in a painstaking manner, recorded in detail and accurately tabulated, there is a great dearth. Any contribution in this direction therefore must be worth while. When Bandler says in his book these opinions are offered on the basis of therapy fortified by clinical observations, or again if you have a theory and it works out in practice, the chances are that it is correctly founded, the hope is awakened that a series of therapeutic tests with organic extracts carefully arranged and reviewed, is to be presented by the author, but in this one is greatly disappointed. Dr. Bandler s book, while it aims...
