Reviews

*Basically no words to describe. It is filled with knowledge and wisdom I am just pleased to let you know that this is actually the greatest publication i have read within my individual lifestyle and may be he best publication for at any time.
(Prof. Ron Gaylord II)*

BROWN ALUMNI MONTHLY, VOL. 41: OCTOBER, 1940 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Brown Alumni Monthly, Vol. 41: October, 1940 D dr. M. L. Crossley 09, who last winter received the New York Brown Club s first Brown Bear award, told the American Chemical Society at its recent meeting that he and his associates in the American Cyanamid Company had discovered that the protein of the blood serum underwent chemical change in animals suffering from pneumonia. The experiments were particularly significant because of the hope Of discovering a new chemical method of treating pneumonia and other infectious diseases in human beings. Said Dr. Crossley: How infecting agents cause disease, what changes occur, where these changes are initiated, the nature of the resulting products and their effect on the animal, are questions which must be answered before chemotherapy can be highly effective in relieving man Of the many ills that now reduce his efficiency, limit his usefulness, and endanger his life. It is imperative to know the nature of the chemical reactions involved in infectious diseases, this knowledge is essential to the future development of chemotherapy. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
