During their first year after seceding from the United States, everything had gone well. In 1861 and early 1862 the rebel army enjoyed success after success, and the initial optimism of those in the North who thought the rebels could be defeated in a few months had settled into the grim acknowledgement that the war would take years and cost many thousands of lives. Now things were turning against the South. It had lost ground in the west, and more seriously its economy was being strangled by a Union naval blockade on its ports. At the beginning of the war, Union General Winfield Scott had rightly seen that one of the Union s greatest advantages was that it had far more warships. He introduced the Anaconda Plan, in which the Navy encircled the Confederacy like a vast snake, blocking every port and major river and cutting it off from the outside world. The Confederate Navy tried to fight off the blockade but was seriously outgunned. Confederate blockade runners, independent operators with fast ships, became national heroes for their daring races across the ocean with Union warships hot on their heels. While their adventures made for good headlines, the goods they slipped through the blockade weren t nearly enough to solve the chronic shortages. The South needed a different solution. It needed some sort of vessel that...
